

COLORADO STATE UNIVERSITY - PUEBLO  
2009-2010 ACADEMIC YEAR  
COURSE and PROGRAM FEES SCHEDULE

Course Fees are those mandatory non-campus-wide fees that a student must pay to enroll in specific courses (e.g. lab fees, music fees, art fees, and materials fees). Course fees are charged for costs incurred to support a specific course [in all its sections] and must be used for costs directly related to the course for which they are charged.

Program Fees are those mandatory non-campus-wide fees that are not specific to a course but rather are related to the instructional program or college. Program Fees are intended to cover costs in multiple courses within a given program over multiple years.
